

MOGUL TJ 95 WIRE THERMAL SPRAY GUN

Flame Spray Gun
For soft wires

The MOGUL TJ-95 Thermal Spray Gun is designed for spraying soft wires, such as: Babbit Aluminium Zinc Tin.

Standard design of the gun: FOR 1/8" WIRES (3,17 mm), fuel gases Oxygen-Acetylene-Air. Output: Up to 20 kg/h Zinc.

Stop/GO wire feed system.

On request: gun can be equipped for 2,3 mm or 3/16" (4,76 mm) wires, fuel gases Oxygen-Propane-Air. Best coatings are achieved using 1/8" wires and oxy-axy-air as fuel gases. Wire straightner, double flowmeter, air control and hose unit recommended.
